

**SUHAE AURA
RAINSHOWER**

Product Overview

The SUHAE Aura delivers a full-body rainfall experience, combining wide coverage with high-pressure flow for a shower that feels immersive yet gentle.

Designed with skin-focused filtration, it helps reduce chlorine exposure while creating softer, more comfortable water for both skin and hair.

Finished with SUHAE's minimalist aesthetic and premium detailing, Aura transforms everyday showers into a calm, spa-like ritual.

Key Benefits

- Provides wide, full-body water flow for an immersive shower experience.
- Delivers a consistent, balanced flow that feels rich and refreshing.
- Helps minimise chlorine exposure for softer water on skin and hair.
- Designed to be gentle and comfortable for daily use.
- Creates a calming, relaxing atmosphere with every shower.
- Features a sleek, minimalist finish for a modern bathroom.

SKIN- FRIENDLY SHOWER EXPERIENCE

Designed with skin in mind, the SUHAE Radiance Hand Shower helps create a gentler shower environment by reducing impurities commonly found in tap water.

This supports the skin's natural moisture balance, helping minimise dryness and irritation while leaving skin feeling softer, smoother, and more refreshed after every shower.

The SUHAE Water Technology

SUHAE combines three technologies to improve both water quality and shower performance.

Purea™ Core

Ceramic bead and micro-fabric filtration help refine water and capture fine particles.

Vitae™ Infusion

25,000 mg Vitamin C neutralises chlorine to create gentler water for skin and hair.

Natural Rain Flow

Designed to mimic soft rainfall, providing a relaxing, skin-friendly shower with smooth and consistent pressure.

Scent Selection

Ocean Calm

A light aquatic scent inspired by the ocean breeze, creating a refreshing and peaceful shower atmosphere.

Baby Powder

A soft, comforting powdery scent that brings a clean and gentle feeling to your daily shower routine.

Soft Citrus

A delicate citrus blend that brightens your mood and leaves the shower feeling fresh and uplifting.

Citrus Bloom

A vibrant combination of lemon and mango that adds a sweet and energizing citrus aroma.

White Jasmine

An elegant floral fragrance that fills the shower with a calm and soothing scent.

Blush Rose

A soft romantic rose scent that creates a luxurious and refreshing shower experience.

Forest Pine

A cool pine fragrance that brings the refreshing feeling of nature into your bathroom.

Cool Eucalyptus

A crisp eucalyptus aroma that helps create a revitalizing and refreshing shower moment.

Forest Calm

Inspired by the natural scent of forest air, providing a relaxing and peaceful environment.

Pure (Unscented)

A fragrance-free option designed for those who prefer a clean shower experience without added scent.

Vitamin C Water & Residual Chlorine-free Water

A vibrant image featuring several slices of lemons floating in a clear, bubbly liquid against a light blue background. The lemons are bright yellow with visible pulp and seeds, and the liquid is filled with small, white bubbles, suggesting a refreshing beverage.

Vitamin C Water

Formulated with a high concentration of vitamin C equivalent to 300 lemons, combined with aromatic oils in a stabilised system.

Helps support skin smoothness, hydration, and overall condition.

Designed to deliver a consistent, skin-conditioning effect with every shower.

A close-up image of water with intricate, shimmering ripples and reflections. The water is a clear, light blue color, and the light creates a sparkling effect across the surface, highlighting the texture and movement of the liquid.

Residual Chlorine-free Water

Effectively reduces residual chlorine in tap water, restoring water balance and minimizing chemical exposure.

Supports skin hydration and protects hair integrity.

Designed for consistent, daily use to maintain healthier-feeling skin and hair.

CHLORINE REMOVAL TEST

STEP 1

A chlorine detection reagent is added into tap water.

STEP 2

The water turns yellow, showing the presence of chlorine.

STEP 3

When the water passes through the SUHAE Vitamin C filter, the yellow color fades.

STEP 4

The water becomes clear again, demonstrating effective chlorine neutralization by SUHAE.

Vitamin C is widely recognized for its ability to neutralize chlorine in water.

**Yellow color =
Containing chlorine**

**Transparent =
No chlorine**

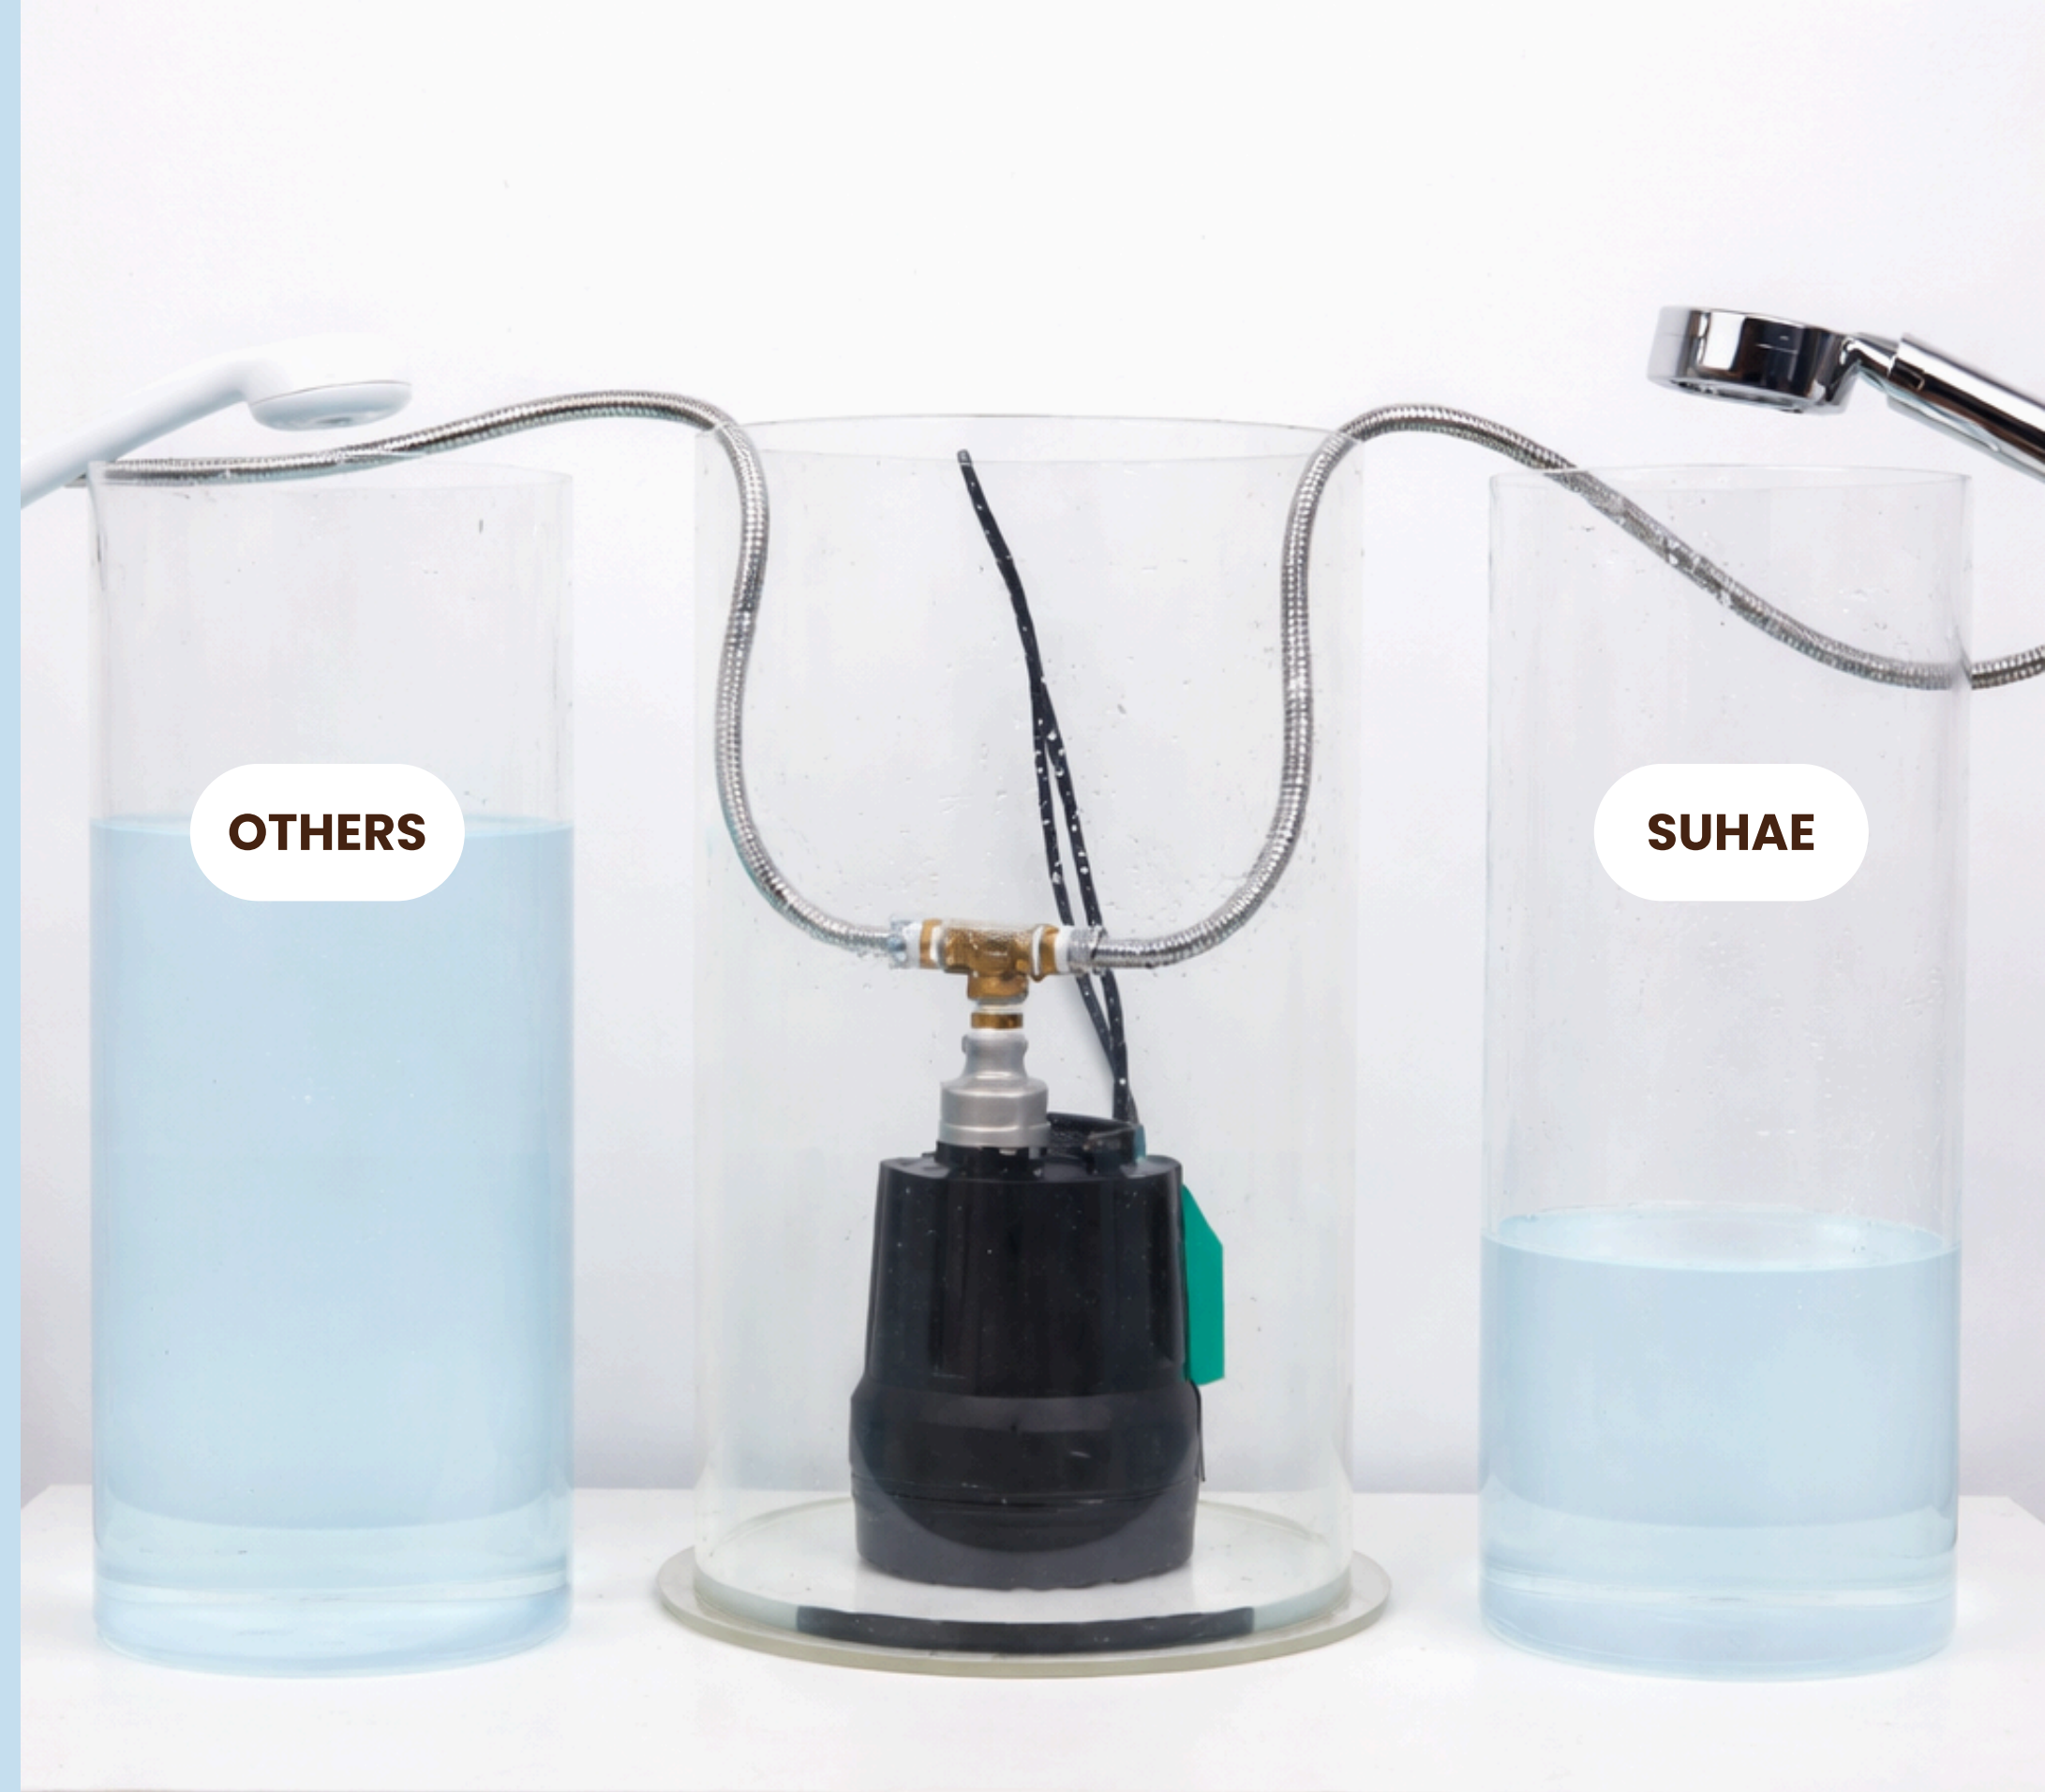

WATER SAVING PERFORMANCE

Smart Water Efficiency

Engineered with a precision micro-spray plate to optimise flow while reducing water consumption.

Efficient. Controlled. Elevated.

Delivers a stronger, smoother stream while helping save water—creating a comfortable shower experience without excess use.

ANTI-BACTERIAL PURIFICATION SYSTEM

ANTI-BACTERIAL CERAMIC BOWL

The anti-bacterial ceramic bowl filter prevents germs and bacterial from forming in tap-water.

Microfabric filters removes contaminants, rust, dust, and foreign matters in tap-water.

* The anti-bacterial ceramic bowl can be used semi-permanently

MICROFABRIC FILTER

Designed to gently remove impurities, rust, dust, and other particles from your tap water, delivering a cleaner, softer shower experience. The microfabric filter is easily replaceable by opening the shower head.

For optimal performance, replace the filter after several months of use or sooner if it shows signs of accumulation.

Relaxing Rainfall Experience

SUHAE Aura turns your daily shower into a spa-like ritual. The wide rainshower panel envelops you in a gentle, immersive flow that instantly soothes and relaxes the body and mind.

Skin & Hair Wellness

High-pressure distribution combined with skin-focused filtration helps reduce chlorine exposure, leaving skin feeling softer and hair smoother after every shower.

Balanced Comfort & Hydration

The carefully engineered water flow delivers a rich, full rainfall that is gentle on the skin, promoting hydration, reducing dryness, and creating a calm, refreshing experience.
