

**SUHAE
NOURISH
HAND SHOWER**

Product Overview

the SUHAE Nourish Hand Shower combines high-pressure performance with **vitamin C filtration** to elevate your daily shower. It delivers a stronger, fuller flow while remaining gentle on skin and hair.

The vitamin C filtration helps neutralise chlorine, allowing water to feel softer, cleaner, and more comfortable from the first rinse.

Finished with a minimalist design and refined metallic accents, **Nourish** brings together performance, care, and quiet elegance in one simple upgrade.

Key Benefits

- Delivers a stronger, fuller stream for a more refreshing shower.
- Helps neutralise chlorine for softer, cleaner water.
- Supports smoother hair and healthier-feeling skin.
- Maintains balanced pressure that is comfortable on the skin barrier.
- Reduces impurities for a more pleasant daily shower.
- Features a sleek, modern look that complements any bathroom.

The SUHAE Water Technology

SUHAE combines three technologies to improve both water quality and shower performance.

Aera™ Flow

Patented micro-jet spray plate that increases water pressure and spray balance.

Vitae™ Infusion

25,000 mg Vitamin C neutralises chlorine to create gentler water for skin and hair.

Purea™ Core

Ceramic bead and micro-fabric filtration help refine water and capture fine particles.

SKIN- FRIENDLY SHOWER EXPERIENCE

Designed with skin in mind, the SUHAE Radiance Hand Shower helps create a gentler shower environment by reducing impurities commonly found in tap water.

This supports the skin's natural moisture balance, helping minimise dryness and irritation while leaving skin feeling softer, smoother, and more refreshed after every shower.

Scent Selection

Ocean Calm

A light aquatic scent inspired by the ocean breeze, creating a refreshing and peaceful shower atmosphere.

Baby Powder

A soft, comforting powdery scent that brings a clean and gentle feeling to your daily shower routine.

Soft Citrus

A delicate citrus blend that brightens your mood and leaves the shower feeling fresh and uplifting.

Citrus Bloom

A vibrant combination of lemon and mango that adds a sweet and energizing citrus aroma.

White Jasmine

An elegant floral fragrance that fills the shower with a calm and soothing scent.

Blush Rose

A soft romantic rose scent that creates a luxurious and refreshing shower experience.

Forest Pine

A cool pine fragrance that brings the refreshing feeling of nature into your bathroom.

Cool Eucalyptus

A crisp eucalyptus aroma that helps create a revitalizing and refreshing shower moment.

Forest Calm

Inspired by the natural scent of forest air, providing a relaxing and peaceful environment.

Pure (Unscented)

A fragrance-free option designed for those who prefer a clean shower experience without added scent.

Vitamin C Water & Residual Chlorine-free Water

Vitamin C Water

Powered by the concentrated essence of 300 lemons, blended with delicate aromatic oils.

Smooths. Softens. Revitalises.

A daily ritual that leaves skin feeling supple, refreshed, and naturally radiant.

Residual Chlorine-free Water

Gently removes residual chlorine for cleaner, more balanced water.

Soothes. Protects. Softens.

A daily ritual that leaves skin and hair feeling calm, comfortable, and naturally healthy.

CHLORINE REMOVAL TEST

STEP 1

A chlorine detection reagent is added into tap water.

STEP 2

The water turns yellow, showing the presence of chlorine.

STEP 3

When the water passes through the SUHAE Vitamin C filter, the yellow color fades.

STEP 4

The water becomes clear again, demonstrating effective chlorine neutralization by SUHAE.

Vitamin C is widely recognized for its ability to neutralize chlorine in water.

**Yellow color =
Containing chlorine**

**Transparent =
No chlorine**

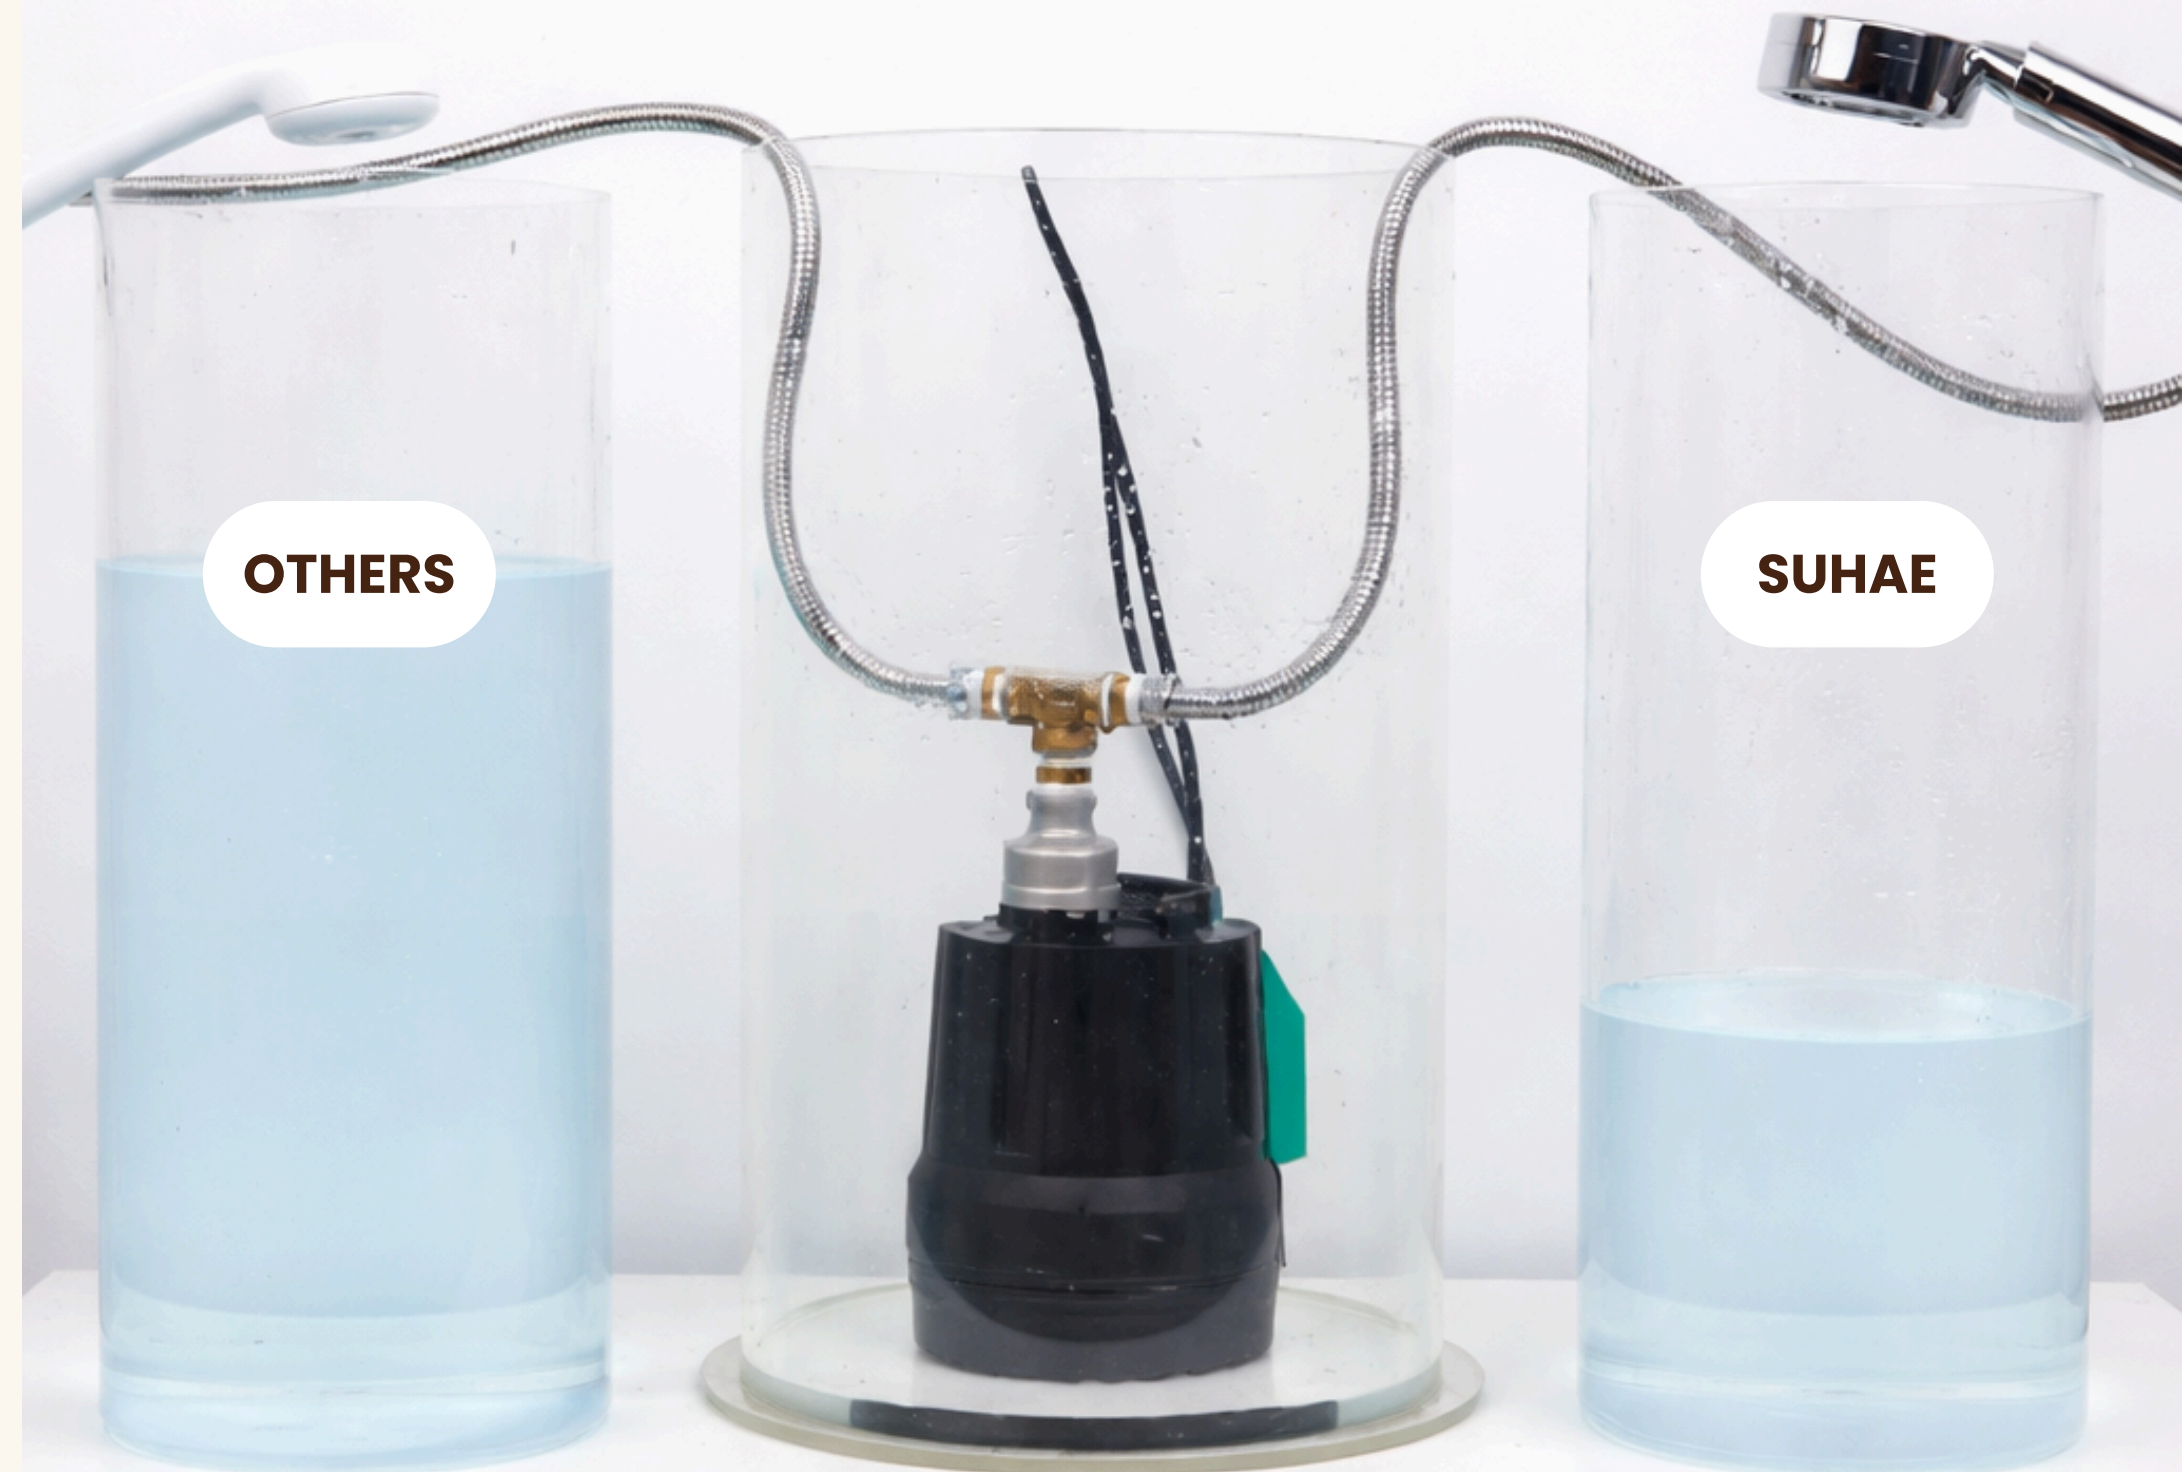

WATER SAVING PERFORMANCE

Smart Water Efficiency

Engineered with a precision micro-spray plate to optimise flow while reducing water consumption.

Efficient. Controlled. Elevated.

Delivers a stronger, smoother stream while helping save water—creating a comfortable shower experience without excess use.

ANTI-BACTERIAL PURIFICATION SYSTEM

ANTI-BACTERIAL CERAMIC BOWL

The anti-bacterial ceramic bowl filter prevents germs and bacterial from forming in tap-water.

Microfabric filters removes contaminants, rust, dust, and foreign matters in tap-water.

* The anti-bacterial ceramic bowl can be used semi-permanently

MICROFABRIC FILTER

Designed to gently remove impurities, rust, dust, and other particles from your tap water, delivering a cleaner, softer shower experience. The microfabric filter is easily replaceable by opening the shower head.

For optimal performance, replace the filter after several months of use or sooner if it shows signs of accumulation.

STRONG WATER PRESSURE

Precision Micro-Spray

Crafted with ultra-fine spray apertures, significantly smaller than conventional designs, to amplify water pressure with precision.

Powerful. Refined. Effortless.

Delivers a soft, enveloping stream that remains gentle on the skin, even at higher pressure.

STRONG IONS SHOWER

Negative Ion Infusion

Powered by a patented spray plate, releasing up to 340,000 negative ions per lcc of water.

Energising. Revitalising. Restorative.

Absorbed through skin and breath, negative ions help support circulation, reduce fatigue, and promote overall vitality, often referred to as the “vitamins of the air.”

COMPONENTS

- 1 Head housing
- 2 Handle
- 3 SUHAE Vit C filter
- 4 Antibacterial filter
- 5 Microfabric filter
- 6 Water cap O-ring
- 7 Spray plate
- 8 Water cap
